A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 20th June 2008 has been entered.

2. Applicants' amended the claims 1, 4 and 7.
3. Applicants' cancelled the claims 6 and 11-12.
4. Applicants' added the new claims 13-16.
5. The claims 1-5, 7 and 13-16 are examined on the merits in this office action.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-5, 7 and 13-16 are rejected under 35 U.S.C. 102(b) as being anticipated by **Hung et al** (US 4,849,321).

The instant claims are to a compound, which can be activated by actinic radiation, comprising at least one urethane group and having the formula:

with the proviso that at least for $n=1$ the radical R and/or the radical X are/is substituted by at least one substituent of the general formula, represented by the group Z-Y-.

Hung et al disclose a UV curable following urethane compound and composition [col. 5, 6 and 13-14], which anticipates the instant claims:

With the applicants' proviso, the formula I can be represented by the following formula:

$Z-Y-X-N(R)-C(O)-O-C(R_1R_2)-C(R_3R_4)-Y-Z$, which is disclosed by **Hung et al** formula, and it can be illustrated by:

Response to Arguments

8. Applicant's arguments filed on 20th June 2008 have been fully considered but they are not persuasive.

Applicants' argue that the amended claims are not anticipated by the Hung et al. The examiner does not find these arguments persuasive. Please see the above rejection for more details.

With regard to applicants' second argument, please note that there is a typo in the formula. The correct formula can be found in the columns 13 and 14 of Hung et al.

Conclusion

9. No claim is allowed.
